

TCS Class of 2024

Post-Secondary Destinations of our 2024 Graduates

Canada (91)

Bishop's University
University of British Columbia
Dalhousie University
Durham College
University of Guelph
Huron University College
Lakehead University
McGill University
McMaster University
Nipissing University
University of Ottawa
Queen's University
University of Toronto
Trent University
University of Waterloo
Western University
Wilfrid Laurier University
York University

United States (15)

University of Arizona
University of California Irvine
University of California San Diego
University of Cincinnati
Duke University
Marion Military Institute
Michigan State University
New York University
Northeastern University
Nova Southeastern University
University of Southern California
University of Virginia
Washington College
Washington University in St. Louis

International (13)

University of Amsterdam
— Netherlands
Durham University — England
University of Edinburgh — Scotland
University of Essex — England
University of Exeter — England
Hong Kong University — Hong Kong
King's College London — England
University of Manchester — England
Marbella International University
Centre — Spain
Queen Mary University — England
Royal College of Surgeons — Ireland
University of St. Andrew's
— Scotland

Program Choices of our 2024 Graduates

37 

Arts/Humanities

Psychology
Direct Entry Law
Communications
Political Science and Public Administration
Architectural Studies
Criminal Justice
Criminology
Comparative Literature
Arts and Science
Media, Culture and Communications
Liberal Arts
History

18 

Science

Life Sciences
Zoology
Biochemistry
Physics
Human Kinetics
Neuroscience
Kinesiology
Arts and Science
Public Health

10 

Technology

Electrical Engineering and Computing Technology
Computer Science

7 **Medicine**

Nursing
Direct Entry Medicine
Biomedical Engineering

1 **Fine Arts**
Music Business

30 

Business

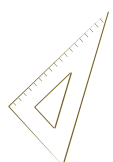

Commerce
International Business Management
Management and Organizational Studies
Global Business and Digital Arts

4 
Gap Year

13 

Engineering

Software Engineering
Mechanical Engineering

2 **Mathematics**

Accounting
Financial Analysis and Risk Management

1 **Trades**

Trades Fundamentals

Nya

School: University of Arizona, USA

Program: Criminal Justice

From: Denver, Colorado, USA

Favourite classes at TCS?

My favorite two classes at TCS were AP research and AP art because of all of the insanely helpful and kind support I got from my teachers as well as the freedom I got in my projects. Without these classes, I don't think I would feel as confident with my decisions for my program at university and as prepared for the future.

One piece of advice to a new student:

Don't be afraid to branch out. Oftentimes in high school, there tends to be this group mindset, but I urge new students to try and branch out from that and try things they want to do, not because their friends are doing it. Some of the opportunities and my favourite memories didn't involve any of my close friends, and they were things only I was involved in.

Jackson

School: Queens University

Program: Engineering

From: Toronto, Ontario, Canada

Outside of class time, what did you get involved in at TCS?

I was on the Bigside soccer team in the fall, the alpine ski team in the winter and the ultimate frisbee team in the spring term. I joined the Ultimate team in Grade 9 and it was rewarding to see my skills develop more every year and be able to step up as a leader for the younger players on the team. I was also on the MasterKey team. MasterKey is a club at TCS where we get to support the work the admissions office does and tour prospective families around campus.

Memorable TCS moment?

There are so many great memories to reflect back on during my time at TCS. Representing Brent House in house competitions for Langmuir Cup points was definitely a highlight. I scored the final point in the house dodgeball tournament of the year, and Brent House was declared the winner!

Henry

School: University of Ottawa, Canada

Program: History

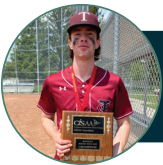

From: Ajax, Ontario, Canada

Memorable TCS moment?

I think that my most memorable TCS moment would have to be sitting in LeVan at the 2024 Film Fest, watching the audience react to the film that two friends and I had spent two months creating. It was so amazing to see our hard work pay off and entertain the dozens of spectators.

Favourite classes at TCS?

My two favourite classes at TCS were Earth and Space Science and The Writer's Craft. I have always had an interest in space exploration, and Earth and Space Science did a great deal to cultivate that passion. There was so much to learn, and I found it all so interesting, especially the unit on ancient astronomy. "The Craft" allowed me complete creative freedom in everything I produced, and we got to try a ton of different types of writing, including novels, short stories, op-eds, personal narratives, screenplays, and more!

Will

School: Huron University College

Program: Business Management

From: Oakville, Ontario

Favourite classes at TCS?

I really enjoyed my Canadian and International politics class. I completed a major research project on global threats to democracy and developed stronger critical thinking, research and presentation skills. I also really enjoyed my English class and data management class. It was great to have so much choice when picking classes as I was really able to see what interested me most.

One piece of advice for a new TCS student?

It's okay to try something new and branch out into different co-curricular areas. By stepping outside of what felt familiar and getting involved in different sports teams and clubs, I made some great friendships and got the opportunity to be a house leader. Try to enjoy the time here and make the most of it because it goes by quicker than you think.

Sienna

School: New York University

Program: Media, Culture and Communications

From: Southampton, Bermuda

Outside of class time, what did you get involved in at TCS?

I was a Ketchum House prefect, Black Student Alliance (BSA) club co-leader, and a member of the Caribbean Council. This past fall, I was the Bigside field hockey team co-captain and we won CISAA gold in the finals. For the winter term, I played Bigside squash and in the spring, I was the Bigside Tennis team captain. I was also involved in Masterkey for my first three years and Masterkey Ketchum leader.

One piece of advice for a new TCS student:

Approach everything with an open mind, and don't be afraid to try something new. TCS gives you so many opportunities to try new things so don't be afraid to pick up a new hobby or sport.

Kaitlin

School: McGill University

Program: Commerce

From: Brooklin, Ontario, Canada

Outside of class time, what did you get involved in at TCS?

I was on the LittleSide and Middleside field hockey teams and the rowing team. I played the Euphonium in the Trinity Winds Band and was a member of the dance crew. I went on the 11-day service trip to Panama in my grad year, where I engaged with the culture of the country and collaborated with a local community.

Memorable TCS moment?

There are so many to choose from! I wrote a rap and performed it in chapel with some of the other MasterKey Leaders to help promote the program. We really brought the energy and it was such a fun morning. Another memorable moment was definitely the last day of school; hanging out with friends and listening to music on the beautiful terraces is definitely something that I will never forget.
