

TRINITY COLLEGE SCHOOL

TCS Scholars' Award Criteria 2019-2020 Academic Year

1. The student must finish the year with a cumulative average of 86% or higher on the June 2020 report card. This cumulative average must be based on a minimum number of TCS on-campus courses or eLearning Consortium Canada online courses taken during the 2019-2020 academic year:
 - At least seven (7) courses in Grade 9
 - At least seven (7) courses in Grade 10
 - At least six (6) courses in Grade 11
 - At least five (5) courses in Grade 12

Summer academy courses and courses taken with other providers do not factor into the TCS Scholars' Award.

2. The student must not be on Acute Disciplinary Probation as of Speech Day on June 19, 2020.
3. The student must meet expectations related to the six learning skills of *responsibility, organization, independent work, collaboration, initiative* and *self-regulation*. For example, a TCS scholar completes homework, is punctual for class, uses class time wisely, submits work on time, seeks assistance when needed and uses technology appropriately, among the other habits of the heart and mind outlined for each learning skill. The full criteria for the TCS learning skills is posted in Senior School classrooms. The academic office looks at each student's reported learning skills ratings and gathers input from course teachers to determine if expectations are being met.
